A long table covered with a grey cloth, displaying a variety of high-end audio equipment. From left to right, there are turntables on stands, several stacks of silver-faced components (amplifiers, tuners, CD players), and a large, multi-driver speaker system. A white box and a CD are also on the table. The equipment is illuminated by several adjustable desk lamps.

Two large, black and red floor-standing speakers. The speaker on the left is a smaller model, while the one on the right is a larger, more prominent model with a bright red grille. Both are mounted on black stands.

The image displays a sophisticated audio system arranged on four black metal shelving units. Each unit is topped with a silver desk lamp. The components are as follows:

- Unit 1 (Left):** Turntable, amplifier, tuner, and CD player.
- Unit 2:** Tuner, amplifier, and CD player.
- Unit 3:** Turntable, amplifier, tuner, and CD player.
- Unit 4 (Right):** Turntable, amplifier, tuner, and CD player.

A wooden floor-standing speaker with three drivers. The top driver is a small tweeter, the middle is a larger midrange driver, and the bottom is a large woofer. The speaker is mounted on four adjustable feet. A small logo is visible at the bottom of the cabinet.

A tall, black, cylindrical floor-standing speaker with a curved top. The speaker is mounted on four adjustable feet. A small logo is visible on the side of the cabinet.

A silver microphone on a stand, positioned to the left of the wooden speaker. The stand has a black base and is connected to a desk.

A desk with a grey cloth, featuring a computer monitor and various cables. The desk is positioned in the background to the right of the black speaker.
