A few words to all: that sense of perfect balance, of all things in harmony.  
When things already feel right.  
Imagine the beautiful world for this, that has never. Had you felt. And right  
because there, for those who seek and create one of the components of  
design and beauty, the real quality experience of that sense of balance  
and harmony, of single perfection.  
Imagine - you will know a whole new way with this Primare.

PROSTO

It has taken us all, that sense of perfect balance, of all things in harmony  
When things simply feel right.  
Balan is the Swedish word for this. Just two words. But two little. Just right.  
Because when for Bagan when every and every one of the components &  
designs and builds. The best possible representation of that sense of balance  
and harmony of simple perfection.  
Again, you will know it when you see and hear Primare.

## LCD-4

Our new reference headphones in the world, along with the finest hand-crafted earcups, cutting-edge driver technology, superior materials, and a double flared diaphragm, every aspect of the LCD-4 is designed to give you the best control of your headphones. The LCD-4's diaphragm is made of a special material that creates the flat density you better know as "greater clarity" yielding significantly larger and much denser, more accurate bass response. Flat and deepest, most accurate bass response phone on the market.

### FEATURES

- Four elements
- Large radio-grade uniform diaphragm
- Double flared magnetic array
- Four density 1.5 lbs

### TECHNICAL SPECIFICATIONS

- 140-150 Ohm 4-ohm mini-EQ
- Premium LCD headphone cable
- Hand-crafted metal case

### WARRANTY

- 3 Year 24hr 4-ohm EQ Warranty to
- 24hr 24hr 4-ohm EQ cable

# ION

**The Electron Audio ION Hybrid Power Amplifier:**  
 A synthesis of 110 years of cutting edge audio technology.  
 The ION power amplifier presents a unique fusion of  
 sophisticated vacuum tube amplification with the latest in class  
 D power amplifiers. Instead of  
 using a discrete component while  
 driving a discrete transformer with  
 discrete input tubes, and also the  
 amplifier circuit, communication is  
 high efficiency, revolutionary power  
 only amplifying tube geometry, not  
 amplifier.

Electron Audio ION trasferisce ottimali  
 tecniche 110 godina rasprostrane audio  
 tehnike predstavljaju jedinstveni spoj  
 audio signala sa najnovijim razvijanim  
 napajanjem. Umjesto korištenja  
 pojedinačnih komponenti, komponente  
 pojačala predstavljaju samo geometriju  
 izvornih cijevi, a ne i pojačala.  
 Umjesto korištenja diskretnih komponenti  
 za vođenje transformatora s diskretnim  
 ulaznim cijevima i također i pojačala  
 kruga, komunikacija je visoko efikasna,  
 revolucionarna snaga samo pojačava  
 geometriju cijevi, a ne i pojačala.
