A high-end audio system display. The background is a dark wall with several logos illuminated by spotlights. From left to right, the logos are: NAGRA (in a stylized font), WEISS (with a stylized 'W' logo), MARTEN (with a circle logo above), WAY Cables (with a stylized 'W' logo), *fidata* (in a cursive font), and BM (in a bold, outlined font). In the foreground, two wooden speakers on black stands are positioned on either side. In the center, a stack of audio components is housed in a wooden rack. The top component is a silver amplifier with a yellow light. Below it are two more silver components, possibly a tuner and a CD player, both with blue lights. Two tall, silver Nagra power supplies with yellow lights are positioned on either side of the rack. A small blue and white logo is visible on the floor in front of each power supply.
