

Dan D'Agostino Pendulum Room Ready

Dan D'Agostino Master Audio Systems is excited to announce that the Pendulum Integrated Amplifier outfitted with the Digital Streaming Module is now Room Ready, adding seamless Room integration to its already comprehensive feature set. With Room Ready certification, the Pendulum Integrated Amplifier becomes a true one component solution for modern high performance audio systems, delivering effortless access to your Room library with bit perfect playback and intuitive control. Beyond being Room Ready, the Digital Streaming Module expands connectivity to include legacy sources, HDMI with eARC, and premium streaming, supporting native playback of 32-bit/192 kHz PCM and DSD256 files. Customized iOS apps provide simple, elegant control and native integration of TIDAL and Qobuz, along with support for TIDAL Connect, Qobuz Connect, and Spotify Connect.

For Pendulum Integrated Amplifier owners, simply open the D'Agostino App and update to the latest firmware to unlock Room integration and elevate your listening experience.
