

Daniel D'Agostino

MASTER AUDIO SYSTEMS

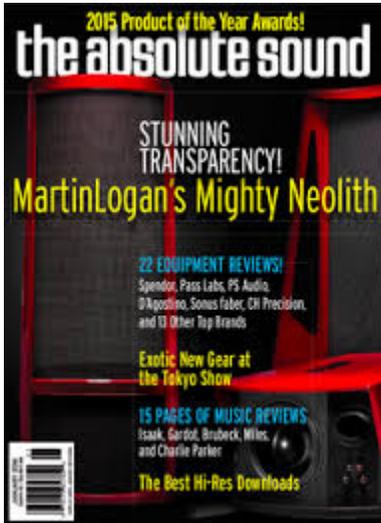

"If you're looking for an amp that can handle difficult loads with ease and provide excellent performance without costing you a packet, this is it."

"There is simply no question about its dominance."

The above quotes are from the **Classic Stereo** review in the current issue of The Absolute Sound. Reviewer Jacob Heilbrunn raves about the sound quality, fit and finish, and aesthetics of this fantastic amplifier. Please see the highlights below.

"From bass to treble, it was as though the sonic tapestry was cut from a single cloth, partly because of the alacrity of the amplifier, partly because of its grip in the bass region."

"What separates the pros from the amateurs in amplifiers, the men from the boys, is their sense of timing, regardless of musical genre. This is one area that D'Agostino has nailed."

"Another thing that D'Agostino's amp does very well indeed is to set up a cavernous soundstage."

"On Leonard Cohen's Old Ideas [Sony], it offered the richest and gruffest rendition of his voice that I've ever heard. In sum, the Classic Stereo offers amazing imaging and clout."

The Momentum MLife wins Robb Report 2015 Best of the Best award.

Recognized as the ultimate in sound quality, convenience, and beauty, the **Momentum MLife** was awarded a **2015 Robb Report Best of the Best Award**.

Combining uncompromised sound quality with incredible convenience and unlimited listening options provided by networking, the Internet and smartphones, the **Momentum MLife** Integrated Amplifier is the pinnacle of elegant performance.

For more information on the **Momentum MLife**, please visit the [Momentum MLife](#) product page.

Momentum Integrated Amplifier Top Product for 2015

After receiving the coveted Outstanding Product designation from HiFi News & Record Review earlier this year, the **Momentum Integrated** amplifier has now been named to the Ultimate Hi-Fi list in the 2015 Hi-Fi News and Record Review Yearbook.

From the original review...

"We weren't expecting the baby of the range to prove so rewarding. Is an exceptional product irrespective of its topology, blowing away any nagging belief that an integrated is a compromise. Powerful, graceful, musical - and (in black) the sexiest looking amplifier amplifier we can name."

Please visit dandagostino.com for more information on the **Momentum Integrated** amplifier or the entire Dan D'Agostino Master Audio Systems product line.
