

# AIR TIGHT

## PC-1 Supreme

### Ultimate MC phono cartridge

OPTIMAL COMBINATION OF LOW IMPEDANCE & HIGH OUTPUT

Epoch-making Hi- $\mu$  core material SH- $\mu$ X recently developed offers high  $\mu$  amount to realise high-efficiency magnetic circuitry

Thick wires help reduce winding Nos. in coil, thus achieving astounding low internal impedance

Expanded bandwidth & extended dynamic range present clearer life-like soundstage, whilst improvement in transient & phase characteristics reproduces ultra-heavy bass with highest resolutions

Internal impedance:	1 ohms (DCR)
Output voltage:	0.4mV/1kHz
Stylus pressure:	1.9g - 2.2g
Channel balance:	within 0.5dB/1kHz
Cantilever:	boron
Dynamic Compliance:	$8 \times 10^{-6}$ Cm/Dyne
Weight:	12g
