

Forbes

"Exquisitely well-built offering incredible performance. In design, build, and performance, they're the epitome of high-end."

"Audeze headphones exemplify the pursuit of excellence. No dynamic headphone at any price comes close."

"Bass impact and detail is simply otherworldly, midrange performance is similarly stellar."

the absolute sound

"Frankly, these headphones feel the way that the interior of a Rolls-Royce automobile looks - in a word, sumptuous."

Arnie Nudell
Loud Speaker Designer

"Headphones provide a path for exceptional sound quality for a fraction of the price of a traditional loudspeaker-based system."

Bob Ludwig
Gateway Mastering

"I keep hearing things on my masters I've never heard before with these phones which is quite something."

Rob Swire
Pendulum

"I'm blown away - these completely solved any issues I had monitoring."

Frank Filippetti
METAlliance

"Stated simply, these are not just the best headphones I've ever heard, they're the best headphone experience I've ever experienced."

Audeze LLC is a California-based high-end audio manufacturer delivering the most accurate sound reproduction available today. Audeze products are engineered with the latest innovations in materials science and technology matched with precision craftsmanship to produce an astonishingly dynamic and immersive sound. Audeze's commitment to research and development is reflected in every facet of our made-in-the-USA products.

LCD COLLECTION
Planar Magnetic Technology

AUDEZE™

Audeze LCD Collection

LCD 3

High Resolution

At the pinnacle of our LCD Collection, the LCD-3 delivers the highest resolution experience we offer. With dynamic sound and a wide, enveloping soundstage you're emotionally connected to artist and music.

Impedance: 110 ohms

Option

- Lambskin or leather-free headband and earpads

Inside Audeze Technology

Audeze is the world leader in planar magnetic headphone technology. Our proprietary drivers use aerospace-grade thin-film diaphragms producing fast, dynamic and accurate music reproduction.

Magnetic Structure

Our magnetic array design generates a uniform magnetic field across the diaphragm eliminating breakup modes for extremely low distortion.

Ultra-Thin Diaphragm

Our aerospace-grade, ultra-thin-film diaphragms are extremely low mass for improved response time, imaging and clarity.

Fazor Technology

Patent-pending Fazor elements improve clarity, focus, and the already spectacular holographic imaging by guiding the flow of sound waves around the powerful magnets.

Find out which Audeze headphone is right for you at:

LCD XC

Reference Level Closed-Back

The LCD-XC offers all the benefits of our planar magnetic design plus increased isolation and reduced ambient noise. It works great with portable players but an external amplifier produces even better results. Impedance: 20 ohms

Option

- Lambskin or leather-free headband and earpads

LCD 2

High Performance

The beautifully hand-crafted LCD-2 delivers audiophile quality, low-distortion sound that articulates the power and nuance of your favorite music. The LCD-2 is also the most forgiving of poor recordings.

Impedance: 70 ohms

Options

- Lambskin or leather-free headband and earpads
- Rings available in Caribbean Rosewood at additional cost

LCD X

Reference Level

Neutral and transparent, the LCD-X is the ultimate tool for recording engineers, musicians and audiophiles for its clean, accurate sound. Portable players drive it with no problem but an amplifier produces even better results. Impedance: 20 ohms

Option

- Lambskin or leather-free headband and earpads
