High End rack system EMPEROR® - active version

Active version—component shelves with active resonance damping(ActiveVibeControl®)component shelves with integrated piezo-ceramic elements(sensor+actuator)and connector for control unit resonance optimized component shelves made from aluminum foam with lateral ceramic-ball coupling component shelves height-adjustable and retrofittable at any time models with one shelf incl. stabilizing bottom cross-bar, metal parts in high-polished aluminum – Cerabase feet as standard, rack prices without control unit (control unit has to be ordered additionally)

EMPEROR® control unit	RRP €	Special Price €
EMPcontrol-1 control unit incl. 1 control module	3,500.00	2,975.00
EMPcontrol-2 control unit incl. 2 control modules	4,000.00	3,400.00
EMPcontrol-3 control unit incl. 3 control modules	4,500.00	3,825.00
EMPcontrol-4 control unit incl. 4 control modules	5,000.00	4,250.00
EMPcontrol-5 control unit incl. 5 control modules	5,500.00	4,675.00
EMPcontrol-6 control unit incl. 6 control modules	6,000.00	5,100.00
EMPcontrol-7 control unit incl. 7 control modules	6,500.00	5,525.00

Control unit to trigger the piezo-ceramic elements in the component shelves measurement and control electronics for active resonance damping (ActiveVibeControl®) permanent measuring of the resonance behaviour of the component shelves using integrated sensor elements permanent triggering (damping) of the component shelves using integrated actuator elements each component shelf individually adjustable to the component weight modular design for flexible retrofit of component shelves max. 7 control modules for 7 components shelves possible of being integrated integrated power supply (100 – 240 V / 50-60 Hz) supplied with shelf connector cables and mains cable
