

HSD SC6

Hi-fi stereo cartridge for sub-chassis turntable

The HSD SC6 was developed specifically to be combined with sub-chassis turntables. A lightweight housing and increased needle compliance ensure that the resonance frequencies of the two vibration systems involved are further apart and therefore have less influence on each other.

Diamond	SFL
Cantilever	Aluminium
Transducer	MC Stereo
Coil	Copper 4N
Magnet	AlNiCo, nickel-plated
Body	Aluminium
Connection	1/2" – 4pin
Vertical tracking angle	23°
Weight	10g
Tracking force	2,0g
Output voltage	1mV @ 5cm/s
Compliance	15µm/mN
Frequency response	20 - 25'000Hz
Impedance	2x 24Ω
Recommended load	200 - 300Ω
