

ESOTERIC

High-end Audio Components 2020

The flagship model named "Grandioso"

Our goal was to push the outer limits of what audio components can be. We arrived at the ideal manifestation of audio engineering. For those searching for a profound experience of sound and music, this is a masterpiece that knows no compromise or equal. The culmination of all ESOTERIC's knowledge and skill is distilled within this, the new summit of our expertise.

There is a musical term that celebrates the majestic: Grandioso*.

* Grandioso (music): Grand or noble.

Grandioso P1X Super Audio CD Transport

Accommodating a newly developed drive mechanism the "VRDS-ATLAS", an ESOTERIC ultimate Super Audio CD transport.

Sold in stereo configuration as shown.

Grandioso D1X Monoblock D/A Converter

Equipped with the "Master Sound Discrete DAC", an ESOTERIC's completely original design. The ultimate D/A converter with a monaural structure.

Grandioso K1X Super Audio CD Player

The VRDS-ATLAS, and Master Sound Discrete DAC. Now, fruited to an integrated Super Audio CD player in the name of Grandioso.

Grandioso PS1 External Power Supply

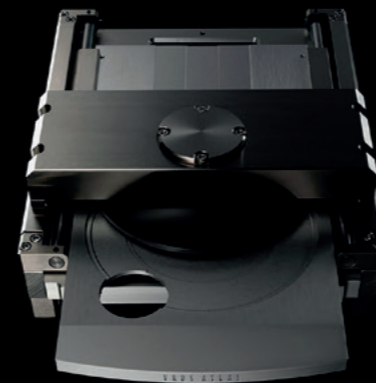

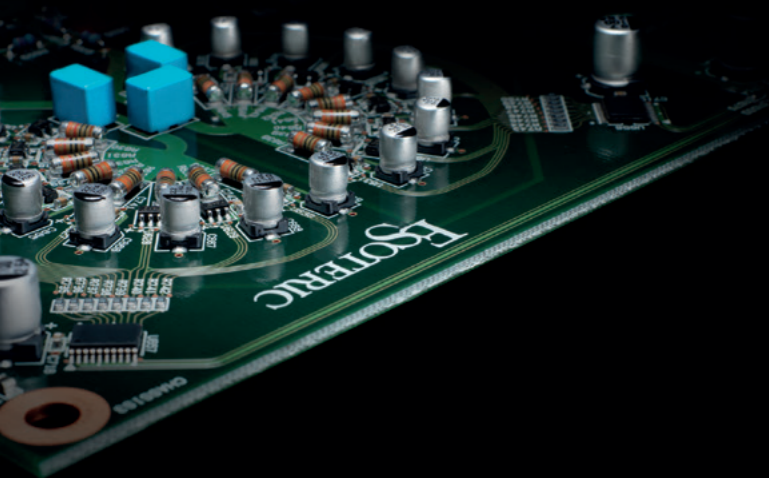

A dedicated external reinforced power supply unit that further enhances the music playback potential of the Grandioso K1X.

* Modification is required on the K1X at the authorized service centre.

TWO REVOLUTIONS

Master Sound Discrete DAC

Unattainable by integrated chips, our goal was to assemble carefully selected and tested discrete components into a complete circuit that could perfectly reproduce all the dynamics and energy of music. Our top engineering teams put their pride on the line to design and produce a quality of sound that can only be found in the Master Sound Discrete DAC discrete D/A converter.

VRDS ATLAS

The Greek god Atlas held the skies on his shoulders as he stood at the centre of the heavens. This peerless new Esoteric system has been designed from the ground up to showcase a unique innovation; a completely new VRDS-ATLAS transport.

“Grandioso” – supremacy in audio engineering.

Grandioso C1X Linestage Preamplifier

An all new preamplifier employing ultra precise attenuator and integrated discrete amplifier modules that define new horizon of ESOTERIC amplifiers for new era.

Grandioso F1 Integrated Amplifier

Opening a new dimension for integrated amplifiers with silicon carbide MOSFET “ESOTERIC MODEL 200”, equipped with Class A power amplifier.

Grandioso G1 Master Clock Generator

A reference model for the master clock generator.

Grandioso M1 Monoblock Amplifier

Faithfully reproduce the dynamics of music. A monaural power amplifier gifted with a driving force that deserves for the flagship model.

Grandioso S1 Stereo Power Amplifier

Religiously inheriting the concept of the Monoblock M1, A stereo power amplifier that reigns as the highest summit of ESOTERIC.

Super Audio CD Players

K-01XD Super Audio CD/CD Player

Finally, the K-01 series sublimates with a new VRDS “ATLAS 01” mechanism inherited from Grandioso, and full in-house designed “Master Sound Discrete DAC”.

K-03XD Super Audio CD/CD Player

Eventually, the K-03 series acquires a new master VRDS “ATLAS 03” mechanism with a high degree of perfection, and full in-house designed “Master Sound Discrete DAC”.

Network Players/DAC

N-01XD Network DAC

A network transport unit that embodies the concept of separate components which is an invincible philosophy of ESOTERIC.

N-03T Network Audio Transport

Now supports ESOTERIC’s original digital transmission standard “ES-LINK”. Network audio player x DAC with rich DAC functions.

Music App for N Series

K-05Xs Super Audio CD/CD Player

Accommodating the VRDS-NEO “VMK-5” mechanism. The core model of the K series with a dual mono D/A converter that follows the Grandioso K1’s DAC platform.

K-07Xs Super Audio CD/CD Player

Employing the “VOSP” mechanism, a full-fledged model with all-new audio circuits with the essence of the K1, and a powerful output buffer amplifier and power supply unit.

N-05 Network Audio Player

Providing flexible access to the music and excellent sound quality while playback. A network audio player that fulfils luxury dreams.

ESOTERIC Sound Stream

Network Audio Application (Complimentary)

An iOS/Android application for tablets and smartphones including iPad designed with an emphasis on both sound quality and network playback operating ease.

Supported products: N-01XD, N-03T, N-05

Super Audio CD Transport

P-05X Super Audio CD Transport

A new milestone cultivated by 30 years of tradition, the P-05X accommodates the VRDS NEO mechanism and the axial sliding pick-up for excellent signal reading.

Music App

ESOTERIC HR Audio Player

Music Player Application (Complimentary)

A music playback application exclusively designed for ESOTERIC Super Audio CD Player/DAC/Network Player that employs USB Audio input. This free app is compatible with Windows and Mac for high-resolution audio formats such as DSD and PCM, without a complicated setup.

Windows Macintosh

Master Clock Generators

G-01X Master Clock Generator

A rubidium clock generator that inherits technologies of the Grandioso G1, supporting various clock formats.

G-02X Master Clock Generator

Accommodating a newly designed OCXO clock that inherits G1 technology supporting various clock formats.

D/A Converters

D-02X 36bit Dual-monaural D/A Converter

A design concept of the Grandioso is condensed into a dual mono unit.

Equipped with the "ES-LINK4" connection.

D-05X 34bit Dual-monaural D/A Converter

Inheriting the concept of the D-02X.

Equipped with four differential circuits/ch, 34-bit D/A processing, and the "ES-LINK4" connection.

Preamplifiers

C-02X Stereo Linestage Preamplifier

Inheriting the expressive power of the Grandioso C1. A dual mono preamplifier that accommodates five built-in power transformers

C-03Xs Stereo Linestage Preamplifier

A dual mono preamplifier that inherits the idea of C-02X. Accommodating three built-in power transformers.

Phonostage Amplifier

E-02 Balanced Phonostage Amplifier

This MC/MM-compatible phono amplifier is an apex of vinyl playback. Especially, providing fully balanced transmission and amplification on all MC cartridges.

Integrated Amplifiers

F-03A Integrated Amplifier

The basic style but completed. Equipped with a class-A amplifier and a fully balanced preamplifier direct descendant of the Grandioso.

Power Amplifiers

S-02 Stereo Power Amplifier

With overwhelming amounts of material, including powerful power supply section. A stereo power amplifier that inherits the idea of Grandioso.

S-03 Stereo Power Amplifier

Employing a minimal approach to return to the origin of the power amplifier design. A new eternal standard is born.

Integrated Amplifiers

F-05 Integrated Amplifier

Fully balanced circuit design on preamplifier section. Employing a high power amplifier module inherited from the upper separate models.

F-07 Integrated Amplifier

Accommodating fully balanced preamplifier section with dual monaural configuration. An arrival of new standard.
