

N-05 NETWORK AUDIO PLAYER

ESOTERIC is proud to introduce a network audio player, model N-05.

N-05 has the highest level of sound quality by being infused with the very essence of our flagship Grandioso D/A converter, clock, and analog audio technologies. High res music file playback can be operated by highly sophisticated iPad App, 'ESOTERIC Sound Stream'. The system also equipped with several digital inputs including USB port.

STREAMING

'ESOTERIC Sound Stream' iPad App

Highly sophisticated operational feel and user-friendly interface

Music file playback from NAS, using large screen iPad should provide user a very easy operation.

Album artwork images are stored on App's cache for faster, stress-free browsing.

Easy song selecting - many tag information shown on App.

Native file playback capability up to DSD 2.8/5.6, PCM 384kHz/32bit

Supporting file formats; DSF, DSDIFF, FLAC, Apple Lossless, WAV, AIFF, MP3, AAC

Gap-less playback (all loss-less file formats)

'OpenHome' Protocol (On-Device Playlists)

Streaming service playback (TIDAL, etc.) *TBA
