NETWORK AUDIO TRANSPORT

N-03T

INTRODUCTION

ESOTERIC proudly announces a Network Audio Transport, model N-03T. By utilizing the most cutting-edge electro-acoustic engineering technologies available today, the N-03T is designed and engineered exclusively for true music lovers and dedicated audiophiles.

The N-03T is the first product from our new category; Network Audio Transport. This is a network renderer without built-in D/A converter, designed to pair with an external D/A converter or a SACD Player equipped with digital input. The design goal of the N-03T is to provide users a maximum flexibility in network audio playback system design, by enabling users' free choice of external D/A converters, ranging from the absolute top end models to the entry level devices.

Combine the N-03T with the P-02X/D-02X/G-01X system and you can playback virtually any digital medium - from standard Red Book CDs, high quality SACDs, downloads and streaming files with ultimate sound quality. To pair with the K series SACD players you can fully utilize the high quality sound of the D/A converters equipped with the SACD players. A pair of the N-03T and the D-05X D/A converter will become a new standard of modular-style digital audio playback system.

The N-03T supports DSD 11.2, PCM 384/32 high resolution signal transfer through USB output terminal, and DSD 2.8 (DoP), 192/24 output through XLR, RCA terminals.

The N-03T is compatible with a variety of audio sources (DSF, DSDIFF, FLAC, Apple Lossless, WAV, AIFF, MP3, and AAC). Gapless playback capability is also offered in all lossless formats, delivering full enjoyment of live or opera recordings with no interruptions between musical tracks. The network playback operation is controlled by our proprietary 'ESOTERIC Sound Stream' App, which provide ultimate comfortability to end users.

With these revolutionary features, the N-03T sets a new dimension in the high end digital streaming player market.
