Isotek
Micro-Analysis

The new Isotek 3500 Micro-Analysis System is a revolutionary new instrument that provides accurate, precise and reliable results for the analysis of a wide range of samples. The system is designed to be easy to use and is suitable for both laboratory and field use. The system is also highly accurate and precise, providing results that are reliable and repeatable. The system is also highly flexible, allowing you to analyse a wide range of samples. The system is also highly durable and is designed to last for many years. The system is also highly cost-effective, providing you with a high quality instrument at a low price. The system is also highly user-friendly, making it easy to use and maintain. The system is also highly reliable, providing you with accurate and precise results every time. The system is also highly accurate and precise, providing results that are reliable and repeatable. ES 31

IsoTek **ES31 PLANS**

ES31 PLANS is a power strip that provides a clean and stable power supply to your PC. It features a 4-pin ATX power connector, a USB-A port, and two standard AC outlets. The power strip is designed to be used with a power supply that has a 4-pin ATX power connector and a USB-A port. The power strip is made of high-quality materials and is designed to be durable and reliable.

IsoTek **EVO2 VENUS**

EVO2 VENUS is a power supply that provides a clean and stable power supply to your PC. It features a 4-pin ATX power connector, a 6-pin EPS power connector, and a 24-pin ATX power connector. The power supply is designed to be used with a motherboard that has a 4-pin ATX power connector, a 6-pin EPS power connector, and a 24-pin ATX power connector. The power supply is made of high-quality materials and is designed to be durable and reliable.

IsoTek **EVO2 MINI MIRA**

EVO2 MINI MIRA is a power supply that provides a clean and stable power supply to your PC. It features a 4-pin ATX power connector, a 6-pin EPS power connector, and a 24-pin ATX power connector. The power supply is designed to be used with a motherboard that has a 4-pin ATX power connector, a 6-pin EPS power connector, and a 24-pin ATX power connector. The power supply is made of high-quality materials and is designed to be durable and reliable.

IsoTek **EVO2 MINI MIRA**

EVO2 MINI MIRA is a power supply that provides a clean and stable power supply to your PC. It features a 4-pin ATX power connector, a 6-pin EPS power connector, and a 24-pin ATX power connector. The power supply is designed to be used with a motherboard that has a 4-pin ATX power connector, a 6-pin EPS power connector, and a 24-pin ATX power connector. The power supply is made of high-quality materials and is designed to be durable and reliable.

IsoTek® | EV03 POLARIS

Your chance to enter IsoTek's innovative and multi award winning range of power conditioning solutions. Polaris is a cost effective upgrade to any audio or video visual system, delivering improved performance, protection and outstanding value for money.

- Resonant Common Mode and Differential Mode Noise Filter
- SP1 Inductor 3000
- Independent surge and Differential Mode noise suppression
- Surge and EMI/RFI response (patent pending)
- 15 000A of surge current protection, reducing typical surge response protection system
- Internal wiring, multi strand silver plated 3000 copper with 99.99% aluminium
- Available in UK, EU, US, AU, CN and ZA markets
- Maximum continuous power 2.000W

IsoTek®

Designed specifically for audiophile White circuit, Mini Mod performance and protection compatible with projectors.

- Resonant Common Mode and Differential Mode Noise Filter
- SP1 Inductor 3000 audio grade
- Independently surge and Differential Mode noise suppression
- High Response Filter -patent pending

Isotek® EV03 VENUS

AV Power Line
Clean power with mains
spike and surge
protection

Total continuous output: 10A (1150 - 2300VA) Max current = 10A

Isotek® | EV03 VENUS

The award-winning Polaris circuit has been recalibrated to offer a highly effective 'line input' solution & cost effective way to provide clean power with mains spike and surge protection to small home cinema systems and compact audio replay - surge protection in a discrete form factor.

- Reference Common Mode and Differential Mode mains input
- 50% reduction THD
- Independent voltage stage Differential Mode noise compensation
- 100000 of instantaneous protection, featuring built-in inrush current protection system
- Internal wiring, multi-ground silver plated PCB with 99.99% aluminium
- Available in UK, EU, US, AU, CN and JP sockets
- Maximum continuous power 3.000W

• Superior safety, made with ultra-plated
 99.999% copper with PTFE insulation
 • Available in 100, 150, 200, 250 and 300
 AWG
 • Maximum continuous power: 2,000W

isoTek® | EV03 MINI MIRA
 Designed specifically for audio-visual applications and utilizing the already highly
 proven Mira core, Mini Mira's unique "Triple Fluorocarbon Fiber" improves
 performance and protection for DVI, LVDS, LVD and graphics systems, and is also fully
 compatible with graphics.

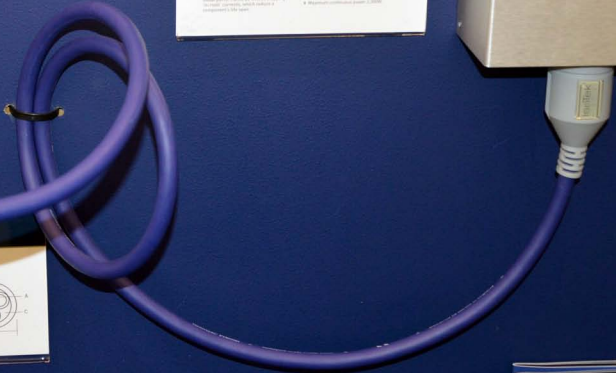

- Maximum Continuous Power and Differential Mode noise rating
- 99% reduction Shield noise, 100% shield
- 100% reduction combined radiated EMI (EMI/CE) and conducted EMI (EMI/RFI) emissions
- Light Fluorocarbon Fiber core supports signal frequencies up to 10GHz and supports 10GbE applications
- 10,000 of continuous protection, protecting the core in most corrosive protection gases
- Superior safety, made with ultra-plated 99.999% copper with PTFE insulation
- Available in 100, 150, 200, 250 and 300 AWG
- Maximum continuous power: 2,000W

isoTek® | EV03 PREMIER
 IsoTek's most affordable premium 10GbE shielded
 networking connector for network fiber systems

- Three 3 Super Shield Plated DVI conductor
- 100% reduction radiated EMI (EMI/CE) and conducted EMI (EMI/RFI) emissions
- 100% reduction combined radiated EMI (EMI/CE) and conducted EMI (EMI/RFI) emissions
- Light Fluorocarbon Fiber core supports signal frequencies up to 10GHz and supports 10GbE applications
- 10,000 of continuous protection, protecting the core in most corrosive protection gases

IsoTek's most affordable premium 10GbE shielded networking connector for network fiber systems

The leader in mass

IsoTek MOSAIC GENESIS

The Mosaic Genesis is a 4000-watt version of IsoTek's ultra-low noise, 100-watt MOSAIC Genesis power supply. It features the same ultra-low noise MOSAIC Genesis power supply technology.
