

# IsoTek '2013' Cable Range

## EVO3 PREMIER POWER CABLE

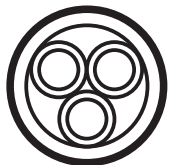

This new high performance power cable was introduced into the range at the end of 2012.

It is a 'FIXED' length cable. ONLY available in 1.5m. The current options are:

UK to C7, C15 & C19 IEC  
EU to C7, C15 & C19 IEC  
US to C7, C15 & C19 IEC  
Australian & Swiss options coming soon.

### Key selling points are:

- 24ct gold termination in connectors
- Silver plated OFC conductors
- Teflon FEP dielectric
- 3-core, 2sqmm design
- Twisted conductors offer RFI rejection
- Cotton filler to maintain dielectric properties

## EVO3 ELITE POWER CABLE

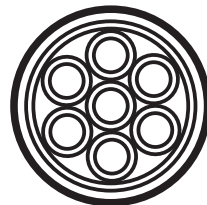

This new extreme performance power cable was introduced at CES in 2013.

New geometry, new standard length of 2m. Also available in custom lengths.

UK Furutech to C7, C15 & C19 IEC  
EU to C7, C15 & C19 IEC  
US to C7, C15 & C19 IEC  
Australian Furutech to C7, C15 & C19 IEC

### Key selling points are:

- 24ct gold hand-terminated connectors
- Silver plated OFC conductors
- Teflon FEP dielectric
- 7-core, 1.25sqmm design
- Active earth shield to prevent RFI
- Cotton filler to maintain dielectric properties

## GII OPTIMUM POWER CABLE

Our highly respected 3-core power cable is slightly updated.

Now supplied as 2m standard and custom lengths. New configuration options:

UK Furutech to C7, C15 & C19 IEC  
EU to C7, C15 & C19 IEC  
US to C7, C15 & C19 IEC  
Australian Furutech to C7, C15 & C19 IEC

### Key selling points are:

- 24ct gold hand-terminated connectors
- OFC conductors
- 3-core, 2.5sqmm design
- Active earth shield to prevent RFI
