

**CLASSIC**

**Description**

The original Kimber Kable. Four copper conductors in PE dielectric per polarity for 13AWG (2.255mm<sup>2</sup>) Often bought as an initial launch into the “high end” and kept because it’s just too good for the money. 1/3rd the signal loss of conventional 13AWG parallel conductor designs. accuracy, pacing, proper imaging are the signature sounds of 4PR.

Postmaster 33

**Electrical Specifications**

Standard

(Cp) parallel capacitance: 1199 pF / meter

(Ls) series inductance: 0.874 uH / meter

(Rdc) dc loop resistance: 0.015 Ohm / meter
