

光悦 Koetsu

Rosewood

The Koetsu Rosewood is a cornerstone of high-performance analog playback history. By carefully selecting ultra high purity materials and aging parts to perform optimally, Sugano-san formed a cartridge that recreates real breathing music extracted from the grooves of your record collection.

Specifications :

- Natural Rosewood Body
- Copper Coil Wiring
- Samarium Cobalt Magnet
- Boron Cantilever
- 0.4 mV Output
- 8.9 g Net Weight
- Recommended Tracking Force 1.8-2.0g
- Recommended Load 80-1,000 ohms
