

# 光悦 Koetsu

## Rosewood Signature

The Koetsu Rosewood is a cornerstone of high-performance analog playback history. By carefully selecting ultra high purity materials and aging parts to perform optimally, Sugano-san formed a cartridge that recreates real breathing music extracted from the grooves of your record collection. The Rosewood Signature uses the most tightly matched coil and core sets offering more precise focus and a larger soundstage than the Rosewood Standard.

Specifications :

- Natural Rosewood Body
- Copper Coil Wiring
- Samarium Cobalt Magnet
- Boron Cantilever
- 0.4 mV Output
- 8.9 g Net Weight
- Recommended Tracking Force 1.8-2.0g
- Recommended Load 80-1,000 ohms
