

KRELL

Product Announcement

We are excited to announce the release of the new S-300i integrated amplifier. The S-300i is the first Krell integrated amplifier to feature iPod

connectivity and extends the Krell tradition of award winning audiophile grade integrated amplifiers. Available now, the S-300i retails for \$2,500 and replaces the KAV-400xi.

S-300i Highlights

150 W into 8Ω and 300 W into 4Ω

Massive 750 VA toroidal transformer and 38,000μF of capacitance

Krell Class A, direct coupled design, and fully balanced preamplifier circuitry

Krell Current Mode provides unequalled bandwidth

Direct coupled circuitry eliminates impact-robbing capacitors from the signal path

Balanced, single-ended, and iPod input are included

S-300i taps audio from the fully differential output included in the internal DACs of iPods/iPhones.

Theater Throughput™ mode for easy integration into home theater systems

WBT binding posts provide superior loudspeaker cable connection.

New solid Aluminum remote control duplicates all front panel buttons as well as providing control for a connected iPod/iPhone.

Menu driven for customizing user operation

Available in silver finish only

Rack Mountable
