Krell S-300i Int.Amp and S-350A CD Player  
with EVO-2250e Stereo and EVO-3250e 3 Channel Pow.Amp's

**Evolution 402e Stereo Amplifier**

- 100-watt stereo power (8 ohms) per channel @ 20kHz
- 20kHz bandwidth (20 Hz to 20 kHz) guaranteed with 0.1dB accuracy
- 100dB dynamic range in the audible spectrum (20Hz to 20kHz)
- Super Capacitor™ feedback network (large reservoir with automatic discharge)
- 100% stereo channel separation (no crosstalk, no intermodulation, and better imaging)
- Common-mode rejection (common-mode) > 80dB @ 100kHz feedback
- Highest signal-to-noise ratio (SNR) available in any stereo amp (115dB SNR)
- 100% stereo channel separation (no crosstalk, no intermodulation)

Evolution 402e \$12,995

Krell EVO 402e Stereo Power Amplifier

Evolution 707 3D Reference Surround Preamp/Processor

A 3D audio format that provides the best 3D audio experience yet is available through Dolby Digital and DTS-ES. The Evolution 707 3D Reference Surround Preamp/Processor is the only processor that can handle both Dolby Digital and DTS-ES. The Evolution 707 3D Reference Surround Preamp/Processor is the only processor that can handle both Dolby Digital and DTS-ES. The Evolution 707 3D Reference Surround Preamp/Processor is the only processor that can handle both Dolby Digital and DTS-ES.
