

**1 year later ...**

There is exactly one year Manufacture Le Son presented at the High-End Munich 2013, on the stand "New Comer", the first prototype of its LS002 - Stereo Amplifier 2x100W. What a long way in one year, since we now present our LS002 "final" version and our LS001 - Streamer/DAC whose first series are in production.

**15.-18. MAY 2014 MUNICH**  
**HALL 2 . C05**

**Listening sessions**

Hotel Vier Jahreszeiten Kempinski  
hall Hofgarten V  
Maximilianstr. 17, 80539 München

16. 17 & 18 of May  
10am to 8pm

**Listening sessions at Kempinski**

Empty places have become scarce in the atrium of the MOC, we offer high quality listening sessions in our auditorium at the **Kempinski Hotel**, hall Hofgarten V, Maximilian Strasse 17, 80539 München.

The exhibition will open on 16, 17 and 18 May, from 10am to 8pm.

Private session or opening extended on request, [contact@le-son.ch](mailto:contact@le-son.ch)

**Manufacture Le Son is now launched in Japan.**

With our distributor Qualia Japan, a launch event took place on April 20 in the Leica Professional Store Ginza in Tokyo.

Yves Galley, CEO of Manufacture Le Son and Augustin Nussbaum, head of the fabulous artistic design of the Le Son devices, have traveled to Tokyo for a week to meet with journalists, critics, dealers and future customers.

*Masanori Fujii, CEO of Qualia Japan present a Le Son setup with one LS001 - Streamer/DAC and two LS002 - Stereo Amplifier.*

*During this event, the high-end audio quality of devices Le Son has been demonstrated, whether with Ethernet or USB streaming, or with an external CD player with digital output connected in an S/PDIF input of LS001*

**LS003 - Monoblock amplifier 200W**

**New product!**

From autumn 2014 the first units of our LS003 - Monoblock amplifier 200W\* will be delivered.

Based on the technology of our "dual-mono" stereo amplifier LS002, which has already proved its high quality audio, it will be integrated in the same housing, glass design and cooling system with aluminum foam.

*\*240W at 8Ω, 360W at 4Ω and 400W at 2Ω*
