

# COLTRANE MOMENTO 2

**MAY 2018**

This year sees the release of one of our most anticipated successors, Coltrane Momento 2.

We have taken the original Coltrane Momento and rebuilt it using design cues from our flagship speaker Coltrane Supreme 2. The enhanced crossover developed for Supreme 2 and CELL drivers from Accuton are integral to Marten's current design philosophy.

Momento 2's unified cabinet is exceptionally rigid, reducing distortion to incredibly low levels. It is designed for easy positioning in the home just like its predecessor.

Official launch: Munich High End, May 2018.
