Development

After the great success of the latest additions to Marten's reference line—the grand Coltrane Momento and the fabulous Coltrane 2—Marten's founder and Chief Designer Leif Olofsson saw the possibility of creating a unique, full-range loudspeaker using crossover technology similar to that employed in the exclusive Coltrane models. After developing a new 8-inch bass driver with cones made of anodized aluminum (produced exclusively for Marten by SEAS in Norway), work on the new model could start. The bass drivers (three are employed in each speaker) are combined with a ceramic midrange and ceramic tweeter from Accuton, Marten's principal supplier of driver units, which gives the Django a very powerful bass response. As in the Coltrane models, the Django has a level control for the bass of ± 1 dB, which enables the listener to tune the speaker to the listening environment. The Django cabinet is not only optimized for resonance control and acoustical purposes, but makes the speaker very attractive, with rounded corners on the top and bottom of the cabinet, both front and back.

Sound

The Django offers a full-bodied sonic performance that perfectly embraces any type of music. All the subtle nuance and powerful dynamics of a great live concert, and all the classic Marten qualities, are there to be found, with an open, transparent sound and the full dynamics of a large loudspeaker.

Technical Specifications

Frequency range / 26-30000 Hz +-3dB

Power rating / 250 W

Sensitivity / 89 dB / 1 m / 2.83V

Impedance / 6 ohm (4 Ohm min)

Type / 3-way bass reflex

Drive units / 3x8" aluminium, 1x6" ceramic, 1x1" ceramic

Crossover frequency / 2:nd order: 250 & 3000 Hz

Cabinet: 25 mm:s heavily braced fibre board cabinets Terminals / WBT single-wiring

Internal wiring / Jorma Design

Stands / Anodised aluminium with Marten cones

Dimensions (WxHxD) / 27 x 125 x 50 cm (10.6 x 49.2 x 19.7")

Net weight / 47 Kg (104 lbs)

Finishes: Piano Black, Piano Silver

Price/pair: USD 15000, €10000

Other stuff in the Marten room:

Jorma Design Prime cabling

MSB Signature DAC/Universal Media Transport, digital source

Marten M.Furniture

Marten M.Amp mono block amplifier

Welcome to the Marten Room – Venetian Suite 30-228 and also the Marten distributor E.A.R. USA – Suite 30-216 where you can listen to Django with E.A.R. electronics.
