SVANÅ MILJÖTEKNIK

Svanå Miljöteknik is a highly regarded Swedish company that produces acoustic room treatments for audiophiles and studios. This year they have created an exceptional diffusor called 'wings' that we will make use of in our room.

We're also relying on Jorma Design's excellent cables as usual.

We hope to see you at CES but you can also follow our blog to find out what we're up to with reports from the show: www.marten.se/blog
