SUPERIOR PERFORMANCE EAR-BUDS

September: EB50 high quality in-ear, balanced armature headphones.

At last! Headphones. We have been working on high quality monitor headphones for some time. The headphone market is a busy and competitive market but it is a real market. Our design objective was to achieve genuine studio monitor sound quality with that certain Musical Fidelity touch of lightness and musicality. This has been no easy task. Many other companies go to an OEM supplier and buy something off the shelf. Not so with MF. We have been developing and refining the EB-50s for more than a year.

The result is excellent.

The EB50s have ruler flat frequency response, high sensitivity (about 100db) and low distortion. Because of their high sensitivity there is little inertia in the system. This results in a clear light, electrostatic style sound quality.

The bass is outstanding. It is deep clear and fast.

The EB-50s come in nice packaging with multiple sets of eartips to ensure perfect fit. Noise isolation is better than 26dB.

MF have a designed non resonant multi layered mil-spec aluminium body which allows the drive units to give utterly pure uncoloured sound. To hear is to believe.

The EB-50s will be available from September this year at a UK retail price of £149

MUSICAL FIDELITY

MUSICAL FIDELITY

EB-50

SUPERIOR PERFORMANCE EAR-BUDS

Very high quality, Musical Fidelity designed, balanced armature, neodymium drive units

Product Features

- Ruler flat frequency response – very low distortion
- High sensitivity (>than 100dB) – better than 26dB noise isolation
- Excellent dynamic range and inertia free reproduction
- Non-resonant mil-spec aluminium body
- Multi-layer, anti-resonant internal construction
- Seven pairs of ear tips included for perfect sealing

Specifications

- Model No : EB-50
- Type : Balanced Armature (6mm)
- Frequency Response : 10Hz-20KHz
- Sound Pressure Level : > 100dB \pm 3dB (at 1KHz)
- Impedance : 26 Ω \pm 10%
- Noise Attenuation : 26dB
- Microphone : -45dB \pm 5dB
- Plug Size : 3.5mm Gold-Plated
- Cable Length : 1.2m
- Weight : 28g
