NAGRA

A close-up, high-angle photograph of a dark, brushed metal object, likely a component of a mechanical device. The object is oriented diagonally across the frame. The word "NIAGRA" is embossed in a stylized, blocky font on a flat surface. The lighting is dramatic, coming from the upper right, which creates strong highlights on the edges and the embossed letters, while the rest of the object and the background are in deep shadow. The background is a solid, dark color, making the metallic texture and the embossed text stand out.
