

INT-250 & INT-25

PASS

Two integrated amps. Two different paths to the same destination: getting lost in music. The Pass Labs INT-25 is the “less is more” love letter—pure Class A, 25 watts per channel, and a beautifully simplified signal path that puts intimacy, tone, and presence front and center. Three line-level inputs, remote control... and nothing extra to distract from the moment. The INT-250 is the “bring the whole performance home” statement—Class AB with 250 watts per channel into 8Ω (and the kind of effortless authority that keeps complex speakers calm, controlled, and musical at any volume). It’s the integrated for big dynamics, big rooms, and “one more track” nights that turn into whole albums. Different budgets. Different systems. Different needs. Same goal: that instant when the room disappears, and the artist feels right there.

SPECS AT A GLANCE

INT-250

Class AB / Type stereo
Gain (dB) 30/36
Volume control (1dB steps) 63dB
Remote yes / Inputs 4 / Outputs 2
Power Output /ch (8 ohm) : 250 Watt
Power Consumption (W) 450
Standby Power Consumption (W) <1
Dimensions (W x D x H) 19 x 21.25 x 9.1 /weight105 (LBS)

INT-25

Class / Type: Class A / Stereo
Power: 25 W / 8 Ω (per channel)
Inputs: 3 | Outputs: 0 | Remote: Yes
Gain: 29/35 dB | Volume control: 63 dB (1 dB steps)
Power consumption: 200 W | Weight: 49 lbs
