## INT-25

The INT-25 amplifier is a special new design, and it follows that it has a story. You may understand that my nearly fifty years with power amplifiers has been an uneven progression towards the machine beauty that is the inspired mix of simplicity and performance, judged not only by measurements but also subjectively by listening to recorded music.

### Technical specifications :

Output Power	25 Watts rms @ 8 ohms 50 Watts rms @ 4 ohms
Distortion	0.1% @ 25 Watts, 8 ohms, 1 KHz
Bandwidth	DC to -2 dB @ 100 KHz
Noise	Less than 50 uV output, unweighted 20 to 20 KHz
Damping Factor	500
Slew rate	100 V/uS
Inputs	3 all single ended
