

## Download Primare App!

**The Primare app has a new name. It's called Pri mare App.**

The Android version is available for download now from Google Play; the Apple version is available from the App store.

Although ranking and search criteria might differ in each country, 'Primare App', 'PrimareApp' or even 'Primare' should get you to the download page.

New firmware to support the new app for I32 mm30 and PRE32 mm30 will be available before the end of this month. We will let you know ASAP!
