

"This is so much more than a simple CD player/amp system: it's the future of hi-resolution home hi-fi."

So concludes the EISA Stereo System 2019–2020 award citation for our I35 and CD35 Prisma.

I35 and CD35 Prisma continues Primare's tradition of creating superbly matched pairs of integrated amplifiers and CD players. In fact, their immediate predecessors, I32 and CD32 received the EISA Two-Channel System 2011–2012 award.
