

Franco Serblin "Accordo"

Speakers Accordo by Franco Serbin, founder of Sonus Faber, design. The Italian artist Franco Serblin speaker announced a new version Accordo speakers with unique features like nobody.

Capital is the founder and head of its reputation Sonus Faber from 1983 to 2005, Franco has now moved to the speakers of their own. He's been playing hi-end speakers impressed by him as speaker, not because of money, all his products are simply passionate sound of a virtuoso. Franco capital Serblin like traditional speakers 2 speakers, so the new version Accordo is no exception. According to Franco, 20W speakers Accordo just to pull, so the launch of the new speakers will be good news for the believer in playing Class A amplifier and a low power amplifier tube. Inheriting the tweeter and speaker mesh on the classic yarn from floor Ktema renowned speakers plus bass mids Scanspeak, Accordo promises to satisfy the most picky acoustic handset. In addition, speakers Accordo also be made from the best wood and to the talented hands from Italy, including the Franco. More importantly, the entire process is complete are processed internally instead of renting them out.

Expected that this version will be released almost four years last quarter, priced at 6000 euro.

- Geometry:** 2 way compact speaker - Specular design.
- Cabinet:** Super-rigid, arch-shaped Solid wood structure
Aluminum-Magnesium decoupling in order to obtain optimum resonance control, shielding against EMI and improved impulse response. Handcrafted by master artisans.
- Stand:** Especially designed to encase the crossover network. Best solution to avoid internal and external interferences.
- Tweeter:** 29mm silk-dome by Ragnar Lian, one of the greatest masters of transducer designer. A well recognised project since 30 years.
- Mid-woofer:** Legendary, custom made, 150mm sliced paper cone, optimized for the best control cone breakups. Symmetrical drive motor system.
- Crossover:** Minimalist approach, low order, phase coherent, finalized to achieve precise soundstaging, focus and depth of image. Selected premium parts, polypropylene capacitors, non inductive resistors, air core inductors.

[Spec]

- Frequency response:** 40Hz-33KHz, in room
- Nominal Impedance:** 4 ohm
- Sensitivity:** 86 dB / W / m
- Minimum power amplifier:** 20 W per channel.
- Speaker dimensions (HxWxD):** 36 x 19 x 36 cm
- Stand height:** 74 cm
- Weight:** 32 Kg pair, stand included (unpacked).
- Finishing:** Solid walnut - Metal parts chrome aluminium.
Grey multilayered hard wood - Metal parts chrome aluminium.

Modello: *Francosetbin* *Speaker*
Caratteristiche: *Realizzato in legno massiccio, il diffusore è stato progettato per offrire un suono caldo e bilanciato, con una risposta in frequenza completa e una dinamica eccezionale. Il diffusore è stato progettato per offrire un suono caldo e bilanciato, con una risposta in frequenza completa e una dinamica eccezionale.*
