

## Product Announcement

Dulliken, 22 September 2011

We are pleased to announce the next product from Series 5.

### The 501 monoamplifier!

The 501 monoamplifier is a single ended design with a power rating of approx. 125W into 8 ohm. The peak power rating is well above 1kW and will drive any speaker on the market. Its sound characteristic is very similar to the highly esteemed virtues of the Series 7 amplifiers.

The production starts in November.

### Pricing:

Retail price (Switzerland)	16'500 CHF per unit	33'000 CHF per pair
----------------------------	---------------------	---------------------

### Technical specifications:

Nominal voltage	100 - 240 V, 50-60 Hz	
Nominal power rating	1000 - 2000 W	
Standby consumption	<0.5W	
Input Impedance	10 kohm	
Main-Out		
Power rating Audio	125	W @ 8 ohm
	250	W @ 4 ohm
	500	W @ 2 ohm
Output current	45	A max
Amplification	+26	dB
Frequency response	DC-800	kHz
Slew rate	0.9	microsecond
Distortion (THD+N)	<0.001	%
Damping factor	>10'000	
Signal to Noise (SNR)	>120dB	
LINK-IN	+12 V	
Weight	ca. 20 kg	

### Dimensions:
