

SRM-D10

Driver Unit for Earspeakers

STAX introduce the world's first compact DAC / electrostatic amp unit

STAX SRM-D10

STAX Japan introduce the SRM-D10, the world's first compact DAC / electrostatic amp unit. High-performance DAC for PC / Mac and variety of digital audio sources, from the desktop part of the amplifier can be adapted STAX mainstream electrostatic earspeakers. Now you can take the SRM-D10 to your home, office, or out door and enjoy the superb sound from STAX anytime, and anywhere you go.

【 Features 】

- y Portable amplifier for STAX electrostatic earspeaker with built-in Lithium Ion rechargeable battery pack.
- y Full Aluminium case with multiple processes to achieve velvet feeling.
- y XMOS USB interface supports DSD128 signal playback and PCM audio with up to 384KHz sample rate.
- y ESS ES9018 DAC coupled with TI OPA1642 ultra low distortion op amp to achieve bit correct signal representation.
- y Astronautic level high voltage amplifier for perfect high frequency response and constant good performance.
- y Well-selected internal components reflect high quality requirement.
- y Standard STAX 5Pin connector for all STAX earspeakers.
- y Wide range switching power supply provides flexible power handle capability.

【 Specifications 】

y Frequency response:	20Hz - 40KHz (+0dB,-3dB)	y Bias voltage:	DC 580V
y Rated input level:	230mV (100V output)	y Supply voltage:	DC 14V
y Maximum input level:	10V (minimum volume in analog input)	y Power consumption:	6.4W (USB input) 5W (analog input)
y Gain:	53dB (450 times)	y Recommended operating temperature:	0-35 C, <90% RH (No condensation)
y Harmonic distortion:	<0.025% / 1KHz-10KHz	y Dimensions:	75(W) X 32(H) X 141(D) mm
y Input impedance:	10 KΩ(analog input)	y Net weight:	450g
y Maximum output voltage:	200Vr.m.s / 100Hz-10KHz	y Signal input:	MicroUSB digital input, 3.5mm analog input
