

# SUGDENAUDIO

'rescuing music from technology'

## A21SE Signature Integrated Amplifier

The special edition A21SE integrated amplifier builds on the strengths of the classic A21. Offering pure class A single ended operation, the sound remains distinctively 'Sugden'.

Upgraded with a fifty percent larger power supply and increased power output, dynamics are even more impressive. A sophisticated pre-amplifier stage is another improvement on the A21. This provides greater clarity without added brightness producing crystal clear highs.

The larger power supply provides greater control over a wider range of loudspeakers and improved micro dynamics for low level listening.

# A21SE Signature Integrated Amplifier

## A21SE Signature Specification

### Facilities

Inputs

Five line level operated by relays

Outputs

One pre-out (variable), one tape out

One pair of stereo multi-way binding posts

Volume Control

Remote control (RC5 handset included)

### Specification

Line Input sensitivity

110mV @ zero attenuation for full output

Power output

30 Watts into 8 Ohms both channels working

40 Watts into 4 Ohms both channels working

Frequency response

+/-1dB 12Hz - 141kHz

Bandwidth

6Hz - 280kHz

Signal to noise

>90dB

Gross weight

15 kgs

Dimensions

115 x 430 x 360mm (hwd)
