## A21SE Signature Integrated Amplifier

The special edition A21SE integrated amplifier builds on the strengths of the classic A21. Offering pure class A single ended voltage rail operation, the sound remains distinctively 'Sugden'. Upgraded with a fifty percent larger power supply and increased power output, dynamics are even more impressive. A sophisticated pre-amplifier stage is another improvement on the A21. This provides greater clarity without added brightness producing crystal clear highs. The larger power supply provides greater control over a wider range of loudspeakers and improved micro dynamics for low level listening.

### Facilities

Inputs	Five line level operated by relays
Outputs	One pre-out (variable), one tape out One pair of stereo multi-way binding posts
Volume Control	Remote control (RC5 handset included)

### Specifications

Line Input Sensitivity	110mV @ zero attenuation for full output
Power Output	30 Watts into 8 Ohms both channels working 40 Watts into 4 Ohms both channels working
Frequency Response	+/-1dB 12Hz-141kHz
Bandwidth	6Hz-280kHz
Signal to Noise	>90dB
Gross Weight (packed)	15kgs
Dimensions	115 x 430 x 360mm (hwd)
