'rescuing music from technology'

Masterclass IA-4 Integrated Amplifier

The IA-4 is our flagship and most popular integrated amplifier. Weighing a substantial 20 kilos the IA-4 has a purposeful look and impressive build quality. Plenty of input and output facilities are on offer including a high quality phono stage. The class A power output circuit has been upgraded from the A21 series with a larger power supply and improved soothing and output capacitors. Gold plated circuit boards, full relay switching and a precision input

selector switch offer further detailing. The pre-amplifier section of the IA-4 is a bespoke design, with surprising clarity and detail. The most noticeable feature is the ability to create a large performance with depth and height on any type of music.

Masterclass IA-4 Integrated Amplifier

Masterclass IA-4 Specification

Facilities

Inputs	Three line level, tape, MM, phono, balanced
Outputs	Variable pre-out, fixed out, loudspeaker out
Volume Control	Motorised remote control (RC5 compatible)
Tape	Monitor and record off

Specification

Line input sensitivity	125mV
Phono input sensitivity	2mV (MM)
Power output	33 Watts per channel
Frequency response	+/-1dB 14Hz - 200kHz
Bandwidth	6Hz - 300kHz
Signal to noise	>84dB
Gross weight	20 kgs
Dimensions	165 x 430 x 440mm (hwd)
