

SUGDENAUDIO

'rescuing music from technology'

Masterclass DAC-4 Digital to Analogue Converter

The DAC-4 offers a well judged alternative to the plethora of other DAC's available in the current market. With sound quality top of the list, our watchword 'Rescuing music from technology' could not be more appropriate. Instead of accepting and using the latest digital trends, we have produced a product meticulously engineered to play music. With our own conversion circuits and data reformatting, a near analogue experience can be enjoyed. The DAC-4 is without limitations and has no over sampling or digital filtering

Masterclass DAC-4 Digital to Analogue Converter

Masterclass DAC-4 Specification

Facilities

Inputs

Three SPDIF coaxial, two SPDIF optical

One USB type B, Mains IEC socket

Outputs

One RCA stereo analogue, one digital coaxial

Front panel controls

Power switch, power lamp, input selector switch
digital lock lamp

Specification

Output

2.15 Volts

Frequency response

+/-1.50dB points 20Hz - 20kHz

Signal to noise

>80dB

Gross weight

5 kgs

Dimensions

90 x 250 x 330mm (hwd)

Digital input

SPDIF 16-24 bit word length

with sample rates from 32 to *96kHz

Power consumption

12 Watts

*24/192 file compatibility requires a re-set of the DAC-4 prior to connecting to the source component.
