

30 Years Jubilee

Vienna
acoustics

for the love of music

Team spirit underlies all of our work at Vienna Acoustics, but when it comes right down to it, we achieve outstanding results because we are passionate. About what? Music, music, and music.

Founded in 1989, Vienna Acoustics has been hand crafting loudspeakers of distinction in Vienna, Austria for over thirty years now.

Today as in the early beginnings, Vienna Acoustics is characterized by founder and chief designer, Peter Gansterer.

A great loudspeaker is a synthesis of the arts. It's an organic whole, whose sound derives from the harmony of countless sound-determinating parameters in combination, mirroring the composition of the truly harmonic high-end system of which it is a vital component.

Peter Gansterer understands this like no one else. Peter is a passionate devotee of music and its reproduction who came of age in Vienna, Austria, where he studied acoustical engineering.

Through his studies of the great concert halls of Vienna, Peter came to understand the dynamics of live music and, in a unique case of reverse engineering, develops loudspeaker designs that uncannily reproduce that experience.

Successfully combining the individual characteristics of a loudspeaker's many parts, the heart of design work, is a task of such complexity that it falls into the realm of an art: it's like crafting, tuning, and balancing a fine musical instrument. Only a very few people are gifted with such a talent.

Over the years, Vienna Acoustics speakers have secured a commanding place in the world market.

Our motto is team spirit, but the complex art of design falls to one exceptionally talented man.
