Introducing the Haydn Grand *Symphony Edition*

Since 1995, our favorite “little” speaker has been named for our famed Austrian composer Joseph Haydn. This name was chosen to represent the smaller scale perfected by Haydn but one that also shows limitless sophistication. With this new third generation Haydn, the Haydn Grand SE, we continue the tradition of quality with no compromise.

The first visible improvement holds true to our long standing philosophy that places drivers above all in speaker design. Immediately recognizable is the use of a patented new Spider-Cone™ woofer. Combined with our new driver compliment in the Symphony Edition, we have thoroughly optimized the crossover with refinements in component selection and application. The final outcome of these new technical improvements are greater dynamic capability and more linear bass response.

What has not changed in this or any other loudspeaker we produce is how and where we manufacture them. For over twenty years, all Vienna Acoustics loudspeakers are carefully hand crafted in Vienna, Austria utilizing only the finest components and testing means insuring each product looks and sounds as beautiful as each other and the original reference design.

Vienna Acoustics – The Art of Natural Sound™

Technical Information

Impedance	4 Ohms
Frequency Response	40Hz – 20kHz
Sensitivity	88.5dB
Recommended Amplifier Size	50 – 180 Watts
Tweeter	1" VA Hand Coated, Triple Neodymium Magnet Silk Dome
Mid-Woofer	6" Spider-Cone™ X3P
Bass System	Front Vented Bass Reflex
Bass Function	Impulse Optimizing QB 3 (quasi Butterworth)
Crossover System	Two Way 6db/12db Bessel
Crossover Components	MKP Capacitor 1% Tolerance Coils 0.7% tol., Air Coils Metal Film Resistors 1% Inductance Free
Weight per Pair	44lbs/20kg
Dimensions (W x H x D) inches	6.85" x 14.2" 10.4"
Dimensions (W x H x D) mm	174mm x 361mm x 265mm
Finishes	Cherry, Rosewood, Piano Black and Piano White
