# RI-100

## Reference Integrated Amplifier

### The RI-100 - Reference Series integrated amplifier.

The RI-100 is a fully integrated amplifier, which includes an optional dac interface. In it's full configuration, the RI-100 will act as a standalone control centre, taking both analog and digital sources of any kind.

Only 3 months after the introduction of the RI-100 integrated amplifier, it already received multiple raving reviews and awards, around the world, for its truly impressive musical performance and power handling.

The RI-100 's class AB setting is adjusted for maintaining the same musical performance of our class A amplifiers.

As with every Vitus Audio power amplifier, the power rating is extremely conservative. Our SS-010 with its 25Wrms in class A, has shown better power handling compared to amplifiers rated at several hundreds of watts - so imagine what this 300Wrms in 8 ohms will sound like...

A preamplifier output is provided to enable bi-amping. Paired with the RS-100, this will provide an extremely powerfull system, capable of handling pretty much any speaker system available on the market today.

INPUT	XLR analog	RCA analog
Available	3	2
Sensitivity	0,7 Vrms	1,4 Vrms
Impedance	22 K $\Omega$	22 K $\Omega$

OUTPUT	Speaker L	Speaker R	Pre out
Available	1	1	1 (XLR)
Impedance	75m $\Omega$	75m $\Omega$	
Power RMS (8/4 ohm)	300/600	300/600	
Frequency response	+800kHz	+800kHz	
Signal to noise ratio	>100dB	>100dB	
THD + noise	> 0,01%	> 0,01%	

POWER CONSUMPTION		
Standby	<1W	
Class AB	100W	(no load)

DIMENSIONS		
Hight	182 mm	
Width	435 mm	
Depth	435 mm	
Weight	37 Kg	

OPTIONS	
DAC board with USB, RCA, XLR and Toslink inputs. Via USB supporting upto 2x DSD	

Below some of the awards the RI-100 has recieved.
