DAC204, USB, S/PDIF D/A Wandler und
Interface

DAC205, S/PDIF D/A Wandler

INT204, USB/DSD interface

PSU102

- Analog Power Supply
- analog, non-switching
 - very low noise / high speed regulation
 - 115V / 230 V mains voltage selectable
 - 5V / 6V / 9V / 12V selectable at 1.5A

MAN301R

- The new version of our
Music Archive Network Player
- Room Cooled
 - Sources: Room, AES/EBU, Linn, Analog
 - Web based remote control
 - CD ripping
 - built-in D/A Converter (optional)

INT204

- USB to AES/EBU and S/PDIF Interface
- DSD64 and DSD128 to PCM conversion
 - up to 384 kHz sampling frequency
 - Optional remote control for volume
 - selectable sampling frequency for DSD to PCM conversion

- Analog outputs on XLR and RCA
- Four selectable output levels

ACTIVE SPEAKERS

Weiss Engineering offers a range of OEM modules created for high-end speaker designs.

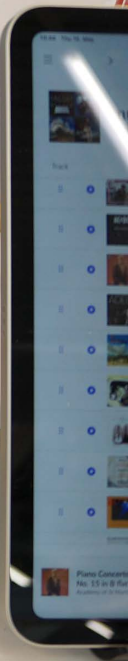

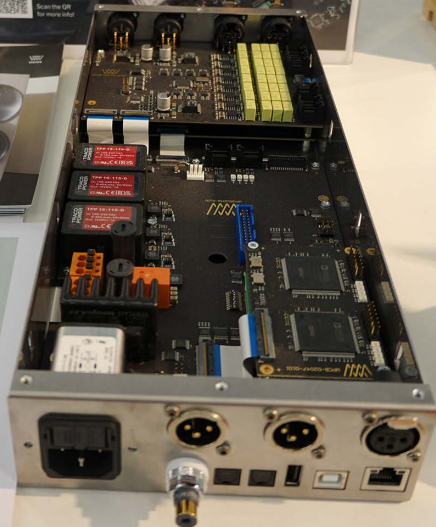

D/A and A/D converters, connectivity to various input and output formats, and DSP processing for crossover filters, EQing, and more. The modules and processing can be modified to suit the client's requirements.

Versatile D/A Converter

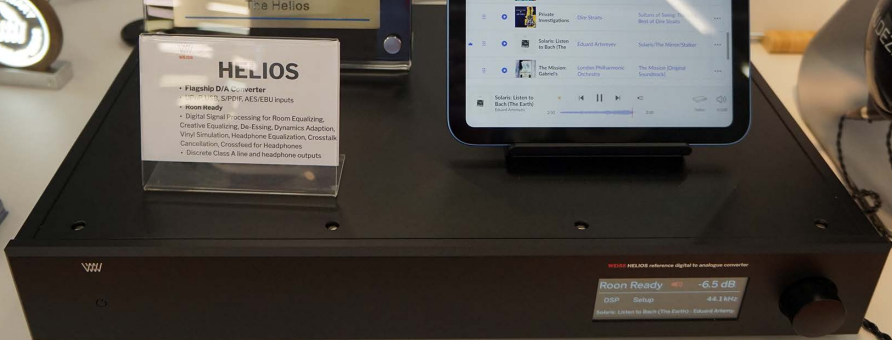

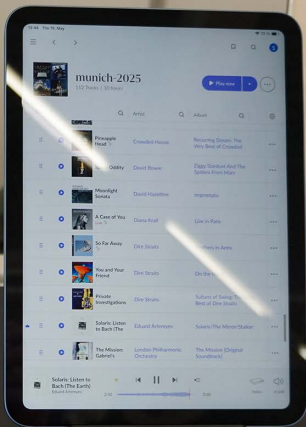

- LINE, USB, S/PDIF, AES/EBU inputs
- Stereo Headphone outputs
- 7
- Room Equalizing, Dynamics Adaption, Vinyl Simulation, Headphone Equalization, Crossover Cancellation, Crossover for Headphones
- Discrete Class A line and headphone outputs
- 4-channel version: DAC502-4ch

HELIOS

- Flagship D/A Converter
- 4x USB, S/PDIF, AES/EBU inputs
- Room Ready
- Digital Signal Processing for Room Equalizing, Creative Equalizing, De-Essing, Dynamics Adaption, Vinyl Simulation, Headphone Equalization, Crosstalk Cancellation, Crossfeed for Headphones
- Discrete Class A line and headphone outputs

A new headphone equalizer approach

It lets the user tune the headphone equalizer according to his / her:

- type of headphone used
- personal taste
- listening loudness
- physiognomy

Spend a few minutes with the calibration procedure and experience a new listening sensation. A voice will lead you through the simple process.
