

**YG ACOUSTICS**

The wait is over...

**YG Acoustics announces an exciting  
new series of loudspeakers...**

**Peaks**

The new Peaks series makes the renowned accuracy and musicality of YG loudspeakers accessible at a lower price point.

The Peaks series includes five new speaker models plus a powered subwoofer, each performing at a new reference level for their price point. They excel in any size room, across all genres of music, and are offered in high quality finishes to suit every style of home.

Throughout the Peaks development process, quality was never compromised. The Peaks models use YG's proprietary ForgeCore tweeters and our exceptional BilletCore drivers. These are mounted in thick aluminum front baffles which are precision machined in-house to a profile guided by detailed computational modeling.

The sealed cabinet bodies are inch-thick dense resin fiber, curved to exact tolerances in custom presses by experienced European workshops. They include innovative bracing and acoustic absorbers which eliminate cabinet resonances and reflections.

Innovative crossover topologies are optimized through complex simulation and countless hours of critical listening. These designs maximize efficiency and ensure the broadest possible compatibility with amplifiers. The Peaks crossovers use the highest quality components and are hand-built on circuit boards that YG machines in-house.

Through its unique combination of cutting-edge science and engineering, Peaks represents an approach with no compromises. Everything from the drivers, cabinets and crossovers, through to the veneer, lacquer and internal cabling has been carefully selected and modeled to deliver the most accurate, most musical performance possible.

Peaks speakers throw a massive soundstage, providing insight and detail yet retain exceptional musicality and a natural sound that is never fatiguing. They provide holographic imaging across a very wide area, combined with purity, dynamics, and deep, authoritative bass.

We believe Peaks provides unsurpassed performance at anywhere near the price. We are incredibly proud to provide products that we love so much ourselves and we are confident that with your efforts they will prove a great market success. We are offering two stand-mounted models with optional stands for each, and three floor-standing models. An exceptional, powered subwoofer rounds out the series. The Peaks products are being introduced with three high quality finishes.

Below are some product descriptions of the Peaks series products:

---

## Cairn

2-way passive stand mount/bookshelf speaker. Dedicated stand available. Incorporates ForgeCore tweeter and 6" (15 cm) BilletCore driver.

*Dimensions:*

370 x 192 x 262mm (H x W x D)

14.6 x 7.6 x 10.3" (H x W x D)

*Weight:* 28lbs (12.7 kg) each

---

## Tor

2-way passive stand mount/bookshelf speaker. Dedicated stand available. Incorporates ForgeCore tweeter and 7" (18 cm) BilletCore driver.

*Dimensions:*

425 x 230 x 300mm (H x W x D)

16.7 x 9.1 x 11.8" (H x W x D)

*Weight:* 40lbs (18.1 kg) each

---

## Talus

2-way passive floor standing speaker. Incorporates ForgeCore tweeter and 7" (18 cm) BilletCore driver.

*Dimensions:*

1015 x 270 x 325mm (H x W x D)

40 x 10.6 x 12.8" (H x W x D)

*Weight:* 95lbs (43.1 kg) each

---

---

## Ascent

3-way passive floor standing speaker. Incorporates ForgeCore tweeter along with 7" (18 cm) and 8.5" (22 cm) BilletCore drivers.

*Dimensions:*

1015 x 270 x 450mm (H x W x D)

40 x 10.6 x 17.7" (H x W x D)

*Weight:* 120lbs (54.4 kg) each

---

## Summit

3-way passive floor standing speaker. Incorporates ForgeCore tweeter along with 7" (18 cm) and 10.25" (26 cm) BilletCore drivers.

*Dimensions:*

1135 x 310 x 500mm (H x W x D)

44.7 x 12.2 x 19.7" (H x W x D)

*Weight:* 159lbs (72.1 kg) each

---

## Descent

Active subwoofer. 1,000 watt audiophile amplifier. Incorporates new 11" (28 cm) BilletCore driver with 3" voice coil, titanium former and advanced magnet.

*Dimensions:*

445 x 400 x 475mm (H x W x D)

17.5 x 15.7 x 18.7" (H x W x D)

*Weight:* 109lbs (49.4kg)
